

Say **goodbye**
to trips to the bank or ATM.

Lakeside Bank's Harbor Master Remote
Deposit service allows you to scan checks
and send them to a centralized
processing location via a secure
Internet connection.

Your funds are deposited —
and you haven't even left
the office.

Let us show you how

harbor master remote deposit can work for you!

the advantages

Reduced deposit preparation and transportation time.

You don't have to waste time endorsing and sorting checks, preparing deposit slips, then driving to the bank and waiting in line. It saves you transportation cost and improves your cash flow. Couriers are a thing of the past. With Lakeside Bank's Harbor Master Remote Deposit, checks are "deposited" from your own office.

Consolidation of accounts means simplified reconciliation.

You no longer need a local banking relationship for each business location—and the elimination of multiple accounts makes reconciliation easier and saves you money.

On-site image archive expedites collection of returned items.

Researching deposited items just became easier. Your on-site archive of all scanned checks allows you to expedite collection of returned items.

who benefits?

Lakeside Bank's Harbor Master Remote Deposit was designed to make your life easier and your business run smoother. It is ideal for businesses that meet any of the following criteria:

- * **Businesses located a long distance away from a Lakeside Bank branch.**
- * **Businesses with multiple locations.**
- * **Businesses with a small to medium amount of non-cash deposits.**
- * **Businesses that want to save time.**
